

## AUGUST BEAUTY TIPS AND SPECIALS

From all of our staff we would like to say thank you for being the best patients in the world! We had such a great time at our semi-annual injectable event on July 15th. We look forward to helping you with your skincare needs for many years to come!

### Try these remedies for dark under eye circles:

\*Sleep!

- Drink at least 8 glasses of water a day to keep the skin smooth and supple.
- Eat a healthy nutritional diet. Food rich in iron helps in reducing dark circles.

· Grated cucumber juice is very useful for dark circles. You can apply it on the eyes the same way you apply creams.

· Apply green tea bags to the eyes for 20 minutes, 3 times per week.

· Always go out in sun wearing sunglasses and after applying sunscreen lotion on the skin around the eyes.

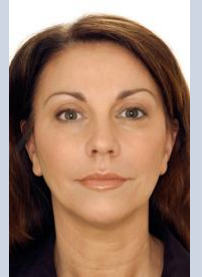

\* Use under eye serum to reduce the darkness around the eyes. Skinceuticals and Skin Medica both make excellent under eye night serums.
